

It's HiP to be SquARED!

Cut 2 10 1/2 in strips of 2 different colors. Cut 4 10 1/2 sqs. each color, from 1 strip each. With remaining strips cut each in half, they will be longer than needed. We'll trim later.

1. Follow the diagram. Put your middle rows together first.

2. Sew the rows together.

3. Sew your rectangles together, watch orientation. Pin the center seam to center seam of quilt. Sew from center out, then flip and sew to center out. Repeat. The rectangles will be bigger and they will be trimmed. DONE!

PINS ARE OUR FRIENDS!

The Beauty of this quilt is having the seams straight.
