

PINWHEEL PARTY

This pattern creates two different 17 1/2" (unfinished) blocks.

To make one Block A and one Block B you will need:

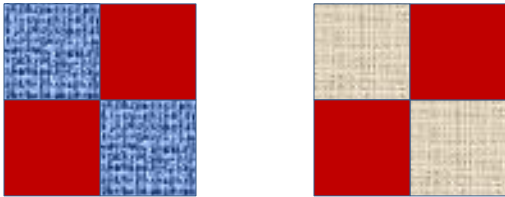

4 – 10" solid or tone on tone background squares

2 – 10" print squares

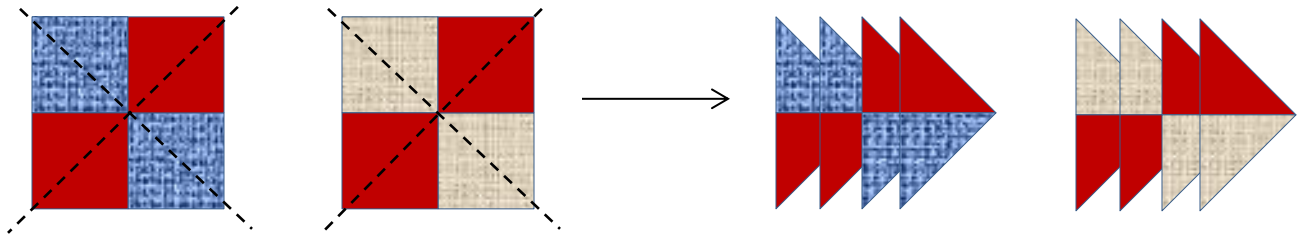

2 – 10" contrasting print squares

DIRECTIONS:

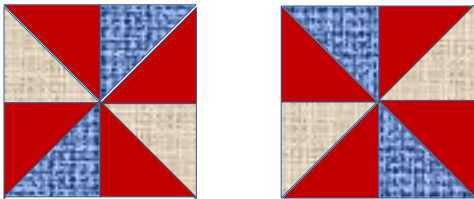

1. Make two four-patch blocks as follows and press toward the dark fabric.

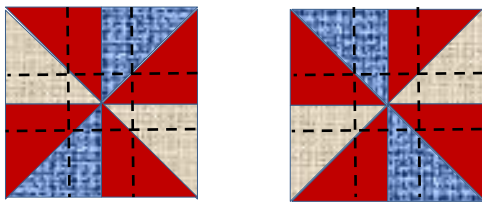

2. Cut each block on both diagonals.

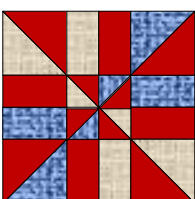

3. Sew squares together as pictured below. You will create two mirror image squares.

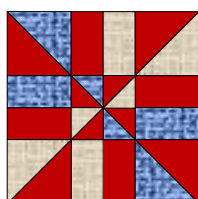

4. Cut block horizontally and vertically, 2 1/2" from the center seams. (Dotted lines)

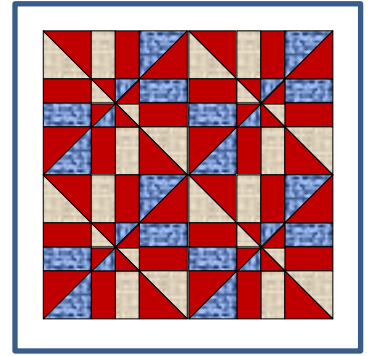

5. Reposition the double rectangle block pieces as pictured. You can use both Block A and Block B in the same quilt or make two different quilts using 4, 6, etc. of either Block A or Block B. It's a very versatile block!

Block A

Block B

Here's one example of a quilt using 4 – Block A blocks plus a 3" finished border.
