

The Big Window

pattern by Wendy Engel

The layout is pretty easy to see and to follow.

I make the top, middle and bottom frame work first.

Add the sides to the big window blocks.

Follow the diagram, use pins to have seams straight.

To make another here's what you need:

4- 14in sq. (window panes)

9 - 4 1/2 in sq. for setting blocks

12 - 4 1/2 in x 14 in. pieces for framework
